

Human anatomy (6-year course) , 2nd semester, academic year 2024/2025

No.	Data	Topics of lectures (L) and tutorials (T)
L. 1.	24.02.2025	General characterization of the exterior of the skull.
T. 1.	24.02	General characteristics of the skull. Skull development: endochondral ossification, membranous ossification. General characterization of the exterior of the skull. Detailed structure of isolated skull bones: sphenoid bone, occipital bone and frontal bone.
T. 3.	27.02	Detailed structure of isolated skull bones: temporal bone, bony tympanic cavity, ethmoid bone, parietal bone. Fontanelle.
L. 2.	03.03.2025	General characterization of the interior of the skull.
T. 4.	03.03	Detailed structure of isolated skull bones: zygomatic bone, maxilla, palatine bone, nasal bone, interior nasal concha bone, vomer, lacrimal bone, mandible. Temporomandibular joint.
T. 5.	06.03	Topographical elements of the lower limb.
L. 3.	10.03.2025	Topographical elements of the skull.
T. 6.	10.03.2025	Practical and theoretical colloquium of the lower limb.
T. 7.	13.03	Retake of the lower limb colloquium, Topographical elements of the skull
L. 4.	17.03.2025	The larynx.
T. 8.	17.03	Practical and theoretical colloquium of the skull
T. 9.	20.03	Retake of the skull colloquium. Regions of head and neck. Muscles and fasciae of head and neck.
L. 5.	24.03.2025	General characterization of cranial nerves. Trigeminal nerve.
T. 10.	24.03	Oral cavity, pharynx and cervical part of esophagus: tongue, deciduous and permanent teeth, hard and soft palate. Pharynx. Salivary glands: submandibular, sublingual and parotid. Thyroid and parathyroid glands.
T. 11.	27.03	External nose and nasal cavity. Paranasal sinuses. Larynx and cervical part of trachea.
L. 6.	31.03.2025	Cranial nerves.
T. 12.	31.03	Arteries of the head and neck: common, internal and external carotid arteries, subclavian artery.
T. 13.	03.04	Veins of the head and neck: dural infoldings and dural venous sinuses. Intracranial haemorrhages. Veins of the head. Internal, external and anterior jugular veins. Lymphatic nodes and vessels of neck and head.
L. 7.	07.04.2025	Autonomic nervous system of the head and neck.
T. 14.	07.04	Nerves of the head and neck. Cervical plexus: short nerves of cervical plexus, long nerves of cervical plexus. Cranial nerves: nuclei of cranial nerves, general somatic efferent column, special visceral efferent column, general visceral efferent column, general somatic afferent column. Nucleus of solitary tract, special somatic afferent column. Olfactory nerves, trigeminal nerve, facial nerve and intermediate nerves, hypoglossal nerve.
T. 15.	10.04	Nerves of the head and neck. Glossopharyngeal, vagus and accessory nerves. Autonomic nervous system of head and neck. Cranial parasympathetic ganglia. Parasympathetic innervation of lacrimal, parotid, submandibular and sublingual glands.
L. 8.	14.04.2025	Visual apparatus.
T. 16.	14.04	Topographical elements of the head and neck: pterygopalatine fossa, buccal space, masticator space, cervical interfascial space, danger space. Triangles of neck.
T. 17.	17.04	Visual apparatus: eyeball, accessory visual apparatus. Optic nerve. Nerves of extraocular muscles (III, IV, VI). Pupillary light reflex and accommodation reaction.
T. 18.	24.04	Auditory and vestibular apparatuses: external, middle and internal ear. Vestibulocochlear nerve. Vestibular pathway, auditory pathway.
L. 8.	28.04.2025	Vestibulocochlear organ.
T. 17.	28.04	Practical and theoretical colloquium of the head, neck and sensory organs.

Exams summer session 2023/2024	
review of anatomical specimens before the practical exam	17-21.06.2025
practical exam	23.06.2025
theoretical exam	26.06.2025
